General information

The fiscal year of Renta 4 (the "SICAV") begins on January 1 and terminate on December 31 of each year.

Annual reports, including audited financial statements, of each fiscal year are established as at December 31 of each year. The SICAV also issues an unaudited report as at June 30 of each year. Those financial reports provide for information on each of the sub-fund's assets as well as the consolidated accounts of the SICAV and are made available to the Shareholders free of charge at the registered office of the SICAV and of the Administrative Agent.

Annual reports, including audited financial statements, are published within 4 months following the end of the accounting year. Unaudited reports are published within 2 months following the end of period to which they refer.

The financial statements of each sub-fund are established in the Reference Currency of the sub-fund but the consolidated accounts are in euro.

The Net Asset Value ("NAV") per share and Adjusted Price (as defined in the Prospectus) of each class within each sub-fund are made public at the offices of the SICAV, the Management Company and Administrative Agent on each NAV Calculation Day.

A copy of the Prospectus, the Key Information Documents ("KIDs"), the most recent financial statements and the Articles may be obtained free of charge upon request at the registered office of the SICAV and on the website www.renta4.lu.

A detailed schedule of changes in the investments for the year ended December 31, 2024 for the different sub-funds is available free of charge upon request at the registered office of the SICAV.

Investment Manager's report

The beginning of 2024 was characterized by high uncertainty in geopolitics, inflation, interest rates, and economic growth, with a significant number of elections taking place globally. Despite challenges such as geopolitical conflicts, monetary policy decisions, and economic fluctuations, the year concluded with widespread gains in global equities, particularly in the U.S., where the S&P 500 approached all-time highs.

Macroeconomic Overview

The U.S. economy showed resilience despite concerns of a hard landing. A robust labor market, strong consumer spending, and technological investment—especially in artificial intelligence—helped sustain growth. Europe, however, continued to struggle with low growth, political uncertainty, and fiscal constraints. China faced structural economic weaknesses, particularly in real estate and domestic consumption, with the effectiveness of stimulus policies being uncertain.

Global monetary policies diverged across regions, influenced by varying inflation and growth patterns. Investors initially expected more aggressive rate cuts, but central banks delivered fewer reductions than anticipated. The Federal Reserve and the European Central Bank (ECB) each cut rates by 100 basis points. Meanwhile, global geopolitical instability persisted, with conflicts in Ukraine, the Middle East, and growing trade tensions, particularly between the U.S. and China.

Equity Market Performance

Despite economic fragmentation, equities performed well, driven by corporate earnings and easing monetary policies.

- The U.S. market outperformed, with the S&P 500 gaining +23.3%, Nasdaq +28.6%, and Russell 2000 +10%. Earnings growth (+10%) and valuation expansion fueled these gains. The S&P 500's rise was concentrated in a few major stocks, with Nvidia alone contributing significantly to returns.
- In Europe, gains were more modest: Eurostoxx 50 rose +8.3%, and Stoxx Europe 600 increased by +6%. The banking (+26%), insurance (+18%), and telecom sectors performed well, while autos (-12%) and commodities (-11%) declined. Germany's DAX (+19%) and Spain's lbex (+14.5%) were among the best performers, while France's CAC fell (-2.5%).
- Other global markets saw mixed results, with Japan's Nikkei up +19.2% and China's HSCI rising +17.7%, while Brazil's Bovespa declined by 10%.

Fixed Income and Interest Rates

2024 saw the beginning of monetary normalization. The ECB and the Fed each cut interest rates by 100 bps, bringing the ECB deposit rate to 3% and the Fed's to 4.25%-4.50%. However, initial market expectations of deeper cuts were not met.

Early in the year, strong economic data and inflation concerns delayed rate cuts, but softening macroeconomic indicators later prompted central banks to act. Trump's re-election in the U.S. increased expectations of a more inflationary policy, affecting interest rate projections. In Europe, economic weakness, particularly in France and Germany, led to declines in short-term German bond yields while longer-term rates saw slight increases.

European Debt and Risk Premiums

The French risk premium surged following legislative elections that led to a fragmented parliament and uncertainty regarding fiscal policies. The premium rose from 60 to 80 bps, surpassing Spanish debt risk, which declined from 100 to 68 bps. Meanwhile, credit spreads contracted throughout the year, though occasional volatility emerged.

Conclusion

Despite economic and geopolitical challenges, 2024 ended with strong equity gains, particularly in the U.S. and select Asian markets. Fixed income markets experienced moderate interest rate cuts, and monetary policy remained a key factor influencing global financial markets. While economic resilience persisted in the U.S., Europe and China faced ongoing headwinds, shaping a complex investment landscape for the coming year.

The information on the environmental and/or social characteristics for the sub-funds disclosing under article 8(1) of SFDR as required by the article 50 (2) of SFDR RTS are disclosed in the unaudited appendix to these financial statements.

To the Shareholders of Renta 4 SICAV 70, Grand Rue L-1660 Luxembourg Luxembourg

REPORT OF THE REVISEUR D'ENTREPRISES AGREE

Opinion

We have audited the financial statements of Renta 4 SICAV ("the Fund") and of each of its sub-funds, which comprise the statement of net assets and the securities portfolio as at 31 December 2024, and the statement of operations and changes in net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at 31 December 2024, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (the "Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the Commission de Surveillance du Secteur Financier ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the « Responsibilities of "réviseur d'entreprises agréé" for the audit of the financial statements » section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and of each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so

Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing
 an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.

- Conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Luxembourg, 14 April 2025

Other notes to the financial statements

1 - General information

Renta 4 (the "SICAV") is an open-ended investment company organised under the laws of Luxembourg as a *société d'investissement à capital variable* (SICAV), incorporated under the form of a public limited liability company (*société anonyme*) on January 21, 2016 and authorised under part I of the law of December 17, 2010 on undertakings of collective investment, as amended (the "Law").

The SICAV is registered with the Luxembourg Trade and Companies Register under number B203660. Its original Articles have been published in the *Recueil électronique des sociétés et associations du Grand-Duché de Luxembourg* on May 25, 2016. The SICAV is subject to the provisions of the Law and of the law of August 10, 1915 on commercial companies, as amended, insofar as the Law does not derogate therefrom.

The SICAV's capital shall at all times be equal to the value of its total net assets. The minimum capital required by law is EUR 1,250,000.

Renta 4 Luxembourg, a public limited company (société anonyme) with registered office at 70, Grand-Rue L-1660 Luxembourg, Grand Duchy of Luxembourg, was appointed as Management Company of the SICAV as from the inception of the SICAV. It is a Management Company within the Chapter 15 of the Law.

As at December 31, 2024, Renta 4 comprises the following sub-funds in operation:

| Sub-funds Sub-funds | Reference currency |
|--|--------------------|
| Renta 4 - Europa Acciones | EUR |
| Renta 4 - Valor Relativo | EUR |
| Renta 4 - R4 Selección Moderada (formerly R4 Activa Adagio 0-60) | EUR |
| Renta 4 - R4 Selección Tolerante (formerly R4 Activa Allegro 50-100) | EUR |
| Renta 4 - Atria Global Opportunities Fund | EUR |
| Renta 4 - Global Investment | EUR |
| Renta 4 - Goizalde (launched on 27/11/24) | EUR |

Classes of shares offered to investors in the different sub-funds are presented in the Special Sections of the Prospectus of the SICAV.

2 - Principal accounting policies

2.1 - Presentation of the financial statements

The financial statements are prepared in accordance with generally accepted accounting principles and with the legal reporting requirements applicable in Luxembourg relating to undertakings for collective investment.

The financial statements for the SICAV and each of its sub-funds were prepared on a going concern basis.

The figures presented in the financial statements tables may in some cases show non-significant differences due to the use of rounding. These differences do not affect in any way the fair view of the financial statements of the SICAV.

2.2 - Valuation of portfolio and other investments

Transferable Securities or Money Market Instruments quoted or traded on an official stock exchange or any other Regulated Market, are valued on the basis of the last known price, and, if the securities or money market instruments are listed on several stock exchanges or Regulated Markets, the last known price of the stock exchange which is the principal market for the security or Money Market Instrument in question, unless these prices are not representative.

For Transferable Securities or Money Market Instruments not quoted or traded on an official stock exchange or any other Regulated Market, and for quoted Transferable Securities or Money Market Instruments, but for which the last known price is not representative, valuation is based on the probable sales price estimated prudently and in good faith by the Board of Directors of the SICAV.

Units and shares issued by Undertakings for Collective Investment in Transferable Securities ("UCITS") or other Undertakings for Collective Investment ("UCIs") are valued at their last available Net Asset Value ("NAV").

The liquidating value of futures, forward or options contracts that are not traded on exchanges or on other Regulated Markets is determined pursuant to the policies established in good faith by the Board of Directors of the SICAV, on a basis consistently applied. The liquidating value of futures, forward or options contracts traded on exchanges or on other Regulated Markets is based upon the last available settlement prices of these contracts on exchanges and Regulated Markets on which the particular futures, forward or options contracts are traded; provided that if a futures, forward or options contract could not be liquidated on such Business Day with respect to which a NAV is being determined, then the basis for determining the liquidating value of such contract is such value as the Board of Directors of the SICAV may, in good faith and pursuant to verifiable valuation procedures, deem fair and reasonable.

Liquid assets and Money Market Instruments with a maturity of less than 12 months may be valued at nominal value plus any accrued interest or using an amortised cost method (it being understood that the method which is more likely to represent the fair market value is retained). This amortised cost method may result in periods during which the value deviates from the price the relevant Company would receive if it sold the investment. The Board of Directors of the SICAV may, from time to time, assess this method of valuation and recommend changes, where necessary, to ensure that such assets are valued at their fair value as determined in good faith pursuant to procedures established by the Board

Other notes to the financial statements

2 - Principal accounting policies

2.2 - Valuation of portfolio and other investments

of Directors of the SICAV. If the Board of Directors of the SICAV believes that a deviation from the amortised cost per Share may result in material dilution or other unfair results to Shareholders, the Board of Directors of the SICAV takes such corrective action, if any, as it deems appropriate, to eliminate or reduce, to the extent reasonably practicable, the dilution or unfair results.

Accrued interest on securities are included only if it is not reflected in the share price.

Cash is valued at nominal value

All other securities and other permissible assets as well as any of the above mentioned assets for which the valuation in accordance with the above subparagraphs would not be possible or practicable, or would not be representative of their probable realisation value, are valued at probable realisation value, as determined with care and in good faith pursuant to procedures established by the SICAV.

2.3 - Net realised profit or loss on sales of investments

The net realised gain/loss on sales of investments is calculated on the basis of the average weighted cost of the investments sold.

2.4 - Foreign currency translation

All assets denominated in a currency other than the reference currency of the respective sub-fund/class have been converted at the rates of exchange prevailing at the date of these financial statements.

Cost of investment securities in currencies other than the currency of the sub-fund is translated into the currency of the sub-fund at the exchange rate applicable at purchase date.

Exchange rates used as at closing date are as follows:

| 1 EUR | = | 1.48925 | CAD | 1 EUR | = | 0.93845 | CHF | 1 EUR | = | 7.45725 | DKK |
|-------|---|---------|-----|-------|---|---------|-----|-------|---|---------|-----|
| 1 EUR | = | 0.8268 | GBP | 1 EUR | = | 11.7605 | NOK | 1 EUR | = | 11.4415 | SEK |
| 1 EUR | = | 1.0355 | USD | | | | | | | | |

2.5 - Combined financial statements

The combined financial statements of the SICAV are expressed in EUR. Accounting items of the different sub-funds denominated in currencies other than EUR are converted into EUR at the exchange rates prevailing at the closing date.

As at closing date, the total amount of cross-investments amounts to EUR 3,567,840.74 (representing 1.89% of the SICAV's combined net assets) and therefore the total combined net asset value at year-end without these cross-investments would amount to EUR 184,963,679.65.

| Sub-funds | Cross investment | Amount (in EUR) |
|-----------------------------|------------------------------------|--------------------|
| Renta 4 - Global Investment | Renta 4 - Valor Relativo I EUR Cap | 3,567,840.74 |
| | | 3 567 840 74 |

2.6 - Valuation of options contracts

Option contracts are valued by reference to the closing price on the relevant market.

As at reporting date, there is no outstanding position on options contracts.

2.7 - Valuation of forward foreign exchange contracts

The unrealised gains or losses resulting from outstanding forward foreign exchange contracts, if any, are determined on the basis of the forward rates applicable at the closing date and are recorded in the Statement of net assets.

As at reporting date, there is no outstanding position on forward foreign exchange contracts.

2.8 - Valuation of futures contracts

At the time of each NAV calculation, the margin call on futures contracts is recorded directly in the realised capital gains and losses accounts relating to forward contracts by the bank account counterparty.

Unrealised appreciations and depreciations on futures contracts are settled daily through the reception/payment of a cash amount corresponding

Other notes to the financial statements

2 - Principal accounting policies

2.8 - Valuation of futures contracts

to the daily increase/decrease of the market value of each opened futures contracts. Such cash amount is recorded under the caption "Cash at banks and liquidities" in the Statement of net assets and the corresponding amount is recorded under the caption "Net realised gain/loss on financial futures" in the Statement of operations and changes in net assets.

For the details of outstanding futures contracts, please refer to the section "Notes to the financial statements - Schedule of derivative instruments.

2.9 - Dividend and interest income

Dividends are recorded net of withholding tax at ex-date. Interest is recorded on an accrual basis.

2.10 - Formation expenses

Formation expenses are amortised over a maximum period of five years.

2.11 - Transaction fees

The transaction fees represent the costs incurred by each sub-fund in connection with purchases and sale of investments. They include brokerage fees as well as bank commissions, tax, depositary fees and other transaction fees, and are included in the Statement of operations and changes in net assets.

3 - Management Company fees

In consideration for all services provided by the Management Company, the Management Company is entitled to an annual Management Company Fee, payable monthly out of the average NAV of each active share class as described below:

| Sub-funds | Share class | ISIN | Management fee (Effective rate) |
|---|-------------|--------------|---------------------------------|
| Renta 4 - Europa Acciones | Class I EUR | LU1475740293 | 0.75% |
| | Class R EUR | LU1475740376 | 1.35% |
| Renta 4 - Valor Relativo | Class I EUR | LU1475744105 | 0.05% |
| | Class R EUR | LU1475744287 | 0.45% |
| Renta 4 - R4 Selección Moderada (formerly R4 | Class I EUR | LU1545926955 | 0.50% |
| Activa Adagio 0-60) | Class R EUR | LU1545927094 | 1.00% |
| Renta 4 - R4 Selección Tolerante (formerly R4 | Class I EUR | LU1533829302 | 0.80% |
| Activa Allegro 50-100) | Class R EUR | LU1533829484 | 1.35% |
| Renta 4 - Atria Global Opportunities Fund | Class F EUR | LU2226949498 | 0.25% |
| | Class I EUR | LU2226949225 | 0.25% |
| Renta 4 - Global Investment | Class I EUR | LU2379858421 | 0.18% |
| Renta 4 - Goizalde | Class I EUR | LU2913310251 | 0.45% |

If a sub-fund invests a substantial proportion of its assets in such other UCITS and/or other UCIs, the maximum level of the management fees that may be charged both to the sub-fund itself and to these other UCITS and/or other UCIs, will not exceed 2.35% of the proportion of the relevant assets.

4 - Performance fees

The Investment Manager is entitled to receive a performance fee out of the assets of the sub-funds. The detail's performance fee calculation methodology is disclosed in the SICAV's prospectus.

The performance fees, accrued on each transaction day, is paid to the Investment Manager on a yearly basis and is equal to a percentage of the NAV above the High Water Mark over the return of the index (if applicable). For the sub-fund Renta 4 - Atria Global Opportunities Fund, the Investment Manager may decide to pay part of all of this performance fee to the Investment Adviser.

Other notes to the financial statements

4 - Performance fees

| Sub-funds | Rate | Reference | Index |
|--|--------|-----------------|---------------------------------------|
| Renta 4 - Europa Acciones | 9.00% | High Water Mark | EuroStoxx 50 price Benchmark index |
| Renta 4 - R4 Selección Moderada (formerly R4 Activa Adagio 0-60) | 10.00% | High Water Mark | n.a. |
| Renta 4 - R4 Selección Tolerante (formerly R4 Activa Allegro 50-100) | 10.00% | High Water Mark | n.a |
| Renta 4 - Atria Global Opportunities Fund | 6.00% | High Water Mark | n.a |

No performance fees are applicable to the sub-funds Renta 4 - Valor Relativo, Renta 4 - Global Investment and Renta 4 - Goizalde.

The performance fees are calculated on the basis of the NAV after deduction of all expenses, liabilities and management fees (but not performance fee), and is adjusted to take account of all subscriptions and redemptions.

The performance fees are equal to the outperformance of the NAV per share multiplied by the number of Shares in circulation during the calculation period. No performance fee is due if the NAV per share before performance fee turns out to be below the High Water Mark for the calculation period in question.

The High Water Mark is defined as the greater of the following two figures:

- the last NAV per share on which a performance fee has been paid;
- the initial NAV per share.

The High Water Mark is decreased by the dividends paid to Shareholders.

In application of the ESMA Guidelines on performance fees (ESMA34-39-992) and Circular CSSF 20/764, the table below displays the actual amount of performance fees accrued by each relevant Share Class as at reporting date and the percentage of these fees based on the Share Class Net Asset Value ("NAV"). Only the Share Classes for which performance fees are accrued as at reporting date are shown in the table below:

| Sub-funds | Share Class | ISIN | Currency | Accrued | % of net |
|--|-------------|--------------|----------|-----------------|----------|
| | | | | performance fee | assets* |
| Renta 4 - R4 Selección Moderada (formerly | Class I EUR | LU1545926955 | EUR | 59,309.44 | 0.19 |
| R4 Activa Adagio 0-60) | Class R EUR | LU1545927094 | EUR | 2,322.48 | 0.04 |
| Renta 4 - R4 Selección Tolerante (formerly | Class I EUR | LU1533829302 | EUR | 18,122.92 | 0.22 |
| R4 Activa Allegro 50-100) | Class R EUR | LU1533829484 | EUR | 3,729.07 | 0.09 |
| Renta 4 - Atria Global Opportunities Fund | Class I EUR | LU2226949225 | EUR | 277,080.67 | 1.13 |
| | Class F EUR | LU2226949498 | EUR | 3,182.42 | 1.12 |

^{*} based on the average net asset value of the share class for the year ended December 31, 2024.

5 - Depositary fees

The Depositary Bank is entitled to receive from the SICAV, on a quarterly basis, an annual safekeeping services fee not exceeding 0.04% p.a. of the average NAV of the relevant sub-fund, as determined during the relevant quarter, subject to a minimum not exceeding EUR 40,000 p.a. The Depositary Bank reserves the right to apply a minimum fee per sub-fund, the amount of which is disclosed in the Depositary Agreement. It is included in the Statement of operations and changes in net assets under the caption "Depositary and sub-depositary fees".

6 - Administration fees

The UCI Administrator is entitled to receive, out of the assets of each class within each sub-fund, a fee corresponding to a maximum of 0.08% p.a. of the average NAV of the relevant sub-fund, as determined during the relevant quarter subject to a minimum fee of up to EUR 80,000 p.a.

7 - Distribution fees

Renta 4 Banco, S.A., as distributor of Renta 4 - Atria Global Opportunities Fund is entitled to receive an annual Distribution Fee out of the assets of each share class, calculated on their average daily total net assets, as described below:

| Sub-fund | Share class | ISIN | Rate p. a. |
|---|-------------|--------------|------------|
| Renta 4 - Atria Global Opportunities Fund | 1 | LU2226949225 | 0.50% |
| | F | LU2226949498 | 0.50% |

The distribution fees shall be paid monthly in arrears, within the first 15 days of the following month.

Other notes to the financial statements

8 - Subscriptions/redemptions

a) Subscriptions

Shareholders or prospective investors may subscribe for a class in a sub-fund at a subscription price per share equal to:

- 1. the initial subscription price where the subscription relates to the initial offering period or initial offering date; or
- 2. the NAV per share or adjusted price (as defined in the prospectus) as of the transaction day on which the subscription is effected where the subscription relates to a subsequent offering (other than the initial offering period or initial offering date) of shares of an existing class in an existing sub-fund.

No additional subscription fee is charged for any of the sub-funds.

b) Redemptions

A Shareholder who redeems his shares receives an amount per share redeemed equal to the NAV or adjusted price per share as of the applicable transaction day for the relevant class in the relevant sub-fund.

No additional redemption fee is charged for any of the sub-funds.

c) Dilution Levy

Shares are in principle issued and redeemed on the basis of a single price, i.e., the NAV per share. However, to mitigate the effect of dilution, the NAV per share may be adjusted on any transaction day in the manner set out below in the Prospectus depending on whether or not a sub-fund is in a net subscription position or in a net redemption position on such transaction day to arrive at the applicable adjusted price. Where there is no dealing on a sub-fund or class of a sub-fund on any transaction day, the applicable price will be the unadjusted NAV per share.

The dilution adjustment will involve adding to, when the sub-fund is in a net subscription position, and deducting from, when the sub-fund is in a net redemption position, the NAV per shares such figure as the Board of Directors of the SICAV considers represents an appropriate figure to meet duties and charges and spreads. In particular, the NAV of the relevant sub-fund will be adjusted (upwards or downwards) by an amount which reflects the estimated fiscal charges, dealing costs that may be incurred by the sub-fund and the estimated bid/offer spread of the assets in which the sub-fund invests. As certain stock markets and jurisdictions may have different charging structures on the buy and sell sides, the resulting adjustment may be different for net inflows than for net outflows. Adjustments will however be limited to a maximum of 2% of the then applicable NAV per share. The adjusted price of each class in the sub-fund will be calculated separately but any dilution adjustment will in percentage terms affect the adjusted price of each class in an identical manner. On the occasions when the dilution adjustment is not made there may be an adverse impact on the total assets of a sub-fund.

Although foreseen in the prospectus, no sub-funds applied a dilution adjustment during the year.

9 - Subscription tax ("Taxe d'abonnement")

The SICAV is not subject to taxation in Luxembourg on its income, profits or gains.

No stamp duty, capital duty or other tax are payable in Luxembourg upon the issue of the shares of the SICAV.

The SICAV is however subject to a subscription tax ("taxe d'abonnement") levied at the rate of 0.05% per annum based on its NAV at the end of the relevant quarter, calculated and paid quarterly. A reduced subscription tax of 0.01% per annum is applicable to classes of the sub-fund which are reserved to one or more institutional investors.

The value of the assets represented by shares held in other undertakings for collective investments already subject to the *taxe d'abonnement* is free from such taxation.

10 - Master-Feeder structure

Renta 4 - Valor Relativo (the "Feeder Fund") is a feeder fund of Renta 4 Valor Relativo, FI (the "Master Fund") and invests in the class P of the Master Fund.

The Master Fund is managed by Renta 4 Gestora SGIIC, S.A.

The investment objective of the Master is to obtain an absolute return in any market environment promoting ESG characteristics, subject to a maximum volatility of 6% per annum.

The sub-fund Renta 4 - Valor Relativo is a feeder sub-fund following Art.77 of the modified law of December 17, 2010. It invests at least 85% of its net assets in the P Class of Shares of Valor Relativo Master Fund, a UCITS incorporated under the laws of the Kingdom of Spain and registered with the Spanish *Comision Nacional del Mercado de Valores* (CNMV) under number 4221, which promotes certain environmental and social characteristics within the meaning of article 8 of SFDR.

As at December 31, 2024, the percentage of ownership (in terms of net assets) is 7,29%.

Other notes to the financial statements

10 - Master-Feeder structure

| Master Fund name | NAV 31/12/2024 | % ownership of Feeder Fund in Master Fund | Management Fee (class P) | TER |
|----------------------------|------------------|--|-----------------------------|-------|
| Renta 4 Valor Relativo, FI | 342.486.331,39 € | 7,29% | 0.40% | 0.51% |

Renta 4 - Valor Relativo financial statements should be read in conjunction with the financial statements of the Master Fund.

The last annual and unaudited semi-annual reports of the Master Fund are available to the Shareholders free of charge upon request at the registered office of the Fund. The Master Fund's period begins on January 1 and ends on December 31.

11 - Transactions with related parties

For the year ended December 31, 2024, the Directors fees amount charged to the SICAV was EUR 17,419.32.

According to the Board of Directors of the SICAV, no Directors held shares of Renta 4 at December 31, 2024.

Same as referred to above, no Directors have any interest in any transaction, which, during the year presented, has affected the SICAV and is unusual in its nature or conditions, or is significant to the business of the SICAV.

| Sub-fund | Investee sub-fund | Currency | Investee amount | % of net assets |
|--------------------------|-------------------------------------|----------|-----------------|-----------------|
| Renta 4 - Valor Relativo | RENTA 4 - VALOR RELATIVO FI P EUR - | EUR | 24,968,367.30 | 13.24% |

As at reporting date, the amount of investment made in related parties stands at a total of EUR 24,968,367.30 and represents 13.24% of the SICAV's combined net assets.

12 - Delegation

Edmond de Rothschild Asset Management (Luxembourg) and Edmond de Rothschild (Europe) may delegate all or part of their functions and duties to a sub-contractor which, having regard to the nature of the functions and duties to be delegated, must be qualified and capable of undertaking the duties in question.

13 - Significant events during the year

A new prospectus came into force in March 2024. Subsequently, the following sub-funds were renamed with effect from March 2024:

- Renta 4 R4 Activa Adagio 0-60 was renamed Renta 4 R4 Selección Moderada
- Renta 4 R4 Activa Allegro 50-100 was renamed Renta 4 R4 Selección Tolerante.

The Board of Directors of the SICAV decided to appoint:

- Edmond de Rothschild (Europe) S.A. as Depositary Bank in replacement of Pictet & Cie (Europe) S.A.
- Edmond de Rothschild Asset Management (Luxembourg) S.A. as Central Administrator, Domiciliary and Paying Agent in replacement of FundPartner Solutions (Europe) S.A.

The migration finalized in May 2024 which was reflected in the Renta 4 (SICAV) prospectus of May 2024.

A new sub-fund, denominated Renta 4 - Goizalde, was launched which was reflected in the SICAV's prospectus of September 2024.

14 - Subsequent events

The publication of the new prospectus with the launch of two new sub-funds is foreseen for the end of the first quarter of 2025. New delegated portfolio manager was also onboarded in first quarter of 2025 to manage portfolios of the new sub-funds.

Edmond de Rothschild has entered into a definitive agreement to sell its Third-Party Asset Servicing activities based in Luxembourg to Apex Group, a global financial services provider. As part of this agreement, Apex Group will acquire Edmond de Rothschild's fund administration, transfer agent and custody activities for its Private Equity and infrastructure funds. Apex Group will then become a strategic provider for Edmond de Rothschild on these activities.

Transaction closing is subject to customary conditions, including regulatory approvals. At this stage, the transaction is awaiting validation by the CSSF. Terms of the transaction are undisclosed.

Remuneration policy

Renta 4 Luxembourg has adopted a remuneration policy, which is in accordance with the principles established by the law of May 10, 2016, amending the law of December 17, 2010 (the "UCITS Law"). In accordance with point 163 of section 14.1 of the European Securities and Markets Authority (ESMA) remuneration guidelines relating to the small or non-complex management companies in presenting remuneration information, detailed quantitative remuneration information is not disclosed in this report. The details of Remuneration Policy, including the total amount of remuneration for the year, for the Senior Management and Other identified Staff, are available upon request at its registered office.

| | Number of Beneficiaries | Total remuneration (in EUR) | Fixed remuneration (in EUR) | Variable remuneration (in EUR) |
|---|-------------------------|-----------------------------|-----------------------------|--------------------------------|
| Total remuneration paid by the Management Company during the financial year | 4 | 260,937.18 | 260,937.18 | - |

Global Risk Exposure

The SICAV's global risk exposure is monitored by using the Commitment approach. In that respect, financial derivatives instruments are converted into their equivalent position in the underlying asset. The global risk exposure shall not exceed the SICAV's NAV.

Additional unaudited information

Securities Financing Transactions Regulation (SFTR) Disclosures

As at December 31, 2024, the SICAV is in the scope of the requirements of the Regulation (EU) 2015/2365 on transparency of securities financing transactions and of reuse. Nevertheless, no corresponding transactions were carried out during the year referring to the financial statements.

Additional unaudited information

SFDR (Sustainable Finance Disclosure Regulation)

On November 27, 2019, Regulation (EU) 2019/2088 of the European Parliament and of the Council on sustainability-related disclosures in the financial services sector was published (the "SFDR"). The SFDR aims to increase the harmonization of, and transparency towards the end investors with regard to, the integration of sustainability risks, the consideration of adverse sustainability impacts, the promotion of environmental or social characteristics and sustainable investment by requiring pre-contractual and ongoing disclosures to end investors.

The SFDR provides high-level definitions and distinguishes between several categorizations of products including "Article 8 products" which are financial products that promote, among other characteristics, environmental or social characteristics, or a combination of those characteristics, provided that the companies in which the investments are made follow good governance practices ("SFDR Article 8 Products") and "Article 9 products" which are products that have sustainable investment as their objective ("SFDR Article 9 Products").

The following sub-funds of Renta 4 are categorized as financial products falling under the scope of the following SFDR articles as at December 31, 2024:

Sub-funds Current SFDR categorization as at 31.12.2024

Renta 4 - Europa Acciones Article 8 product

Renta 4 - Valor Relativo Article 8 product

Renta 4 - R4 Selección Moderata (formerly R4 Activa Adagio 0-60)

Article 8 product

Renta 4 - R4 Selección Tolerante (formerly R4 Activa Allegro 50-100)

Article 8 product

Within the meaning of SFDR (regulation EU 2019/2088 of November 27, 2019 on sustainability-related disclosures in the financial services sector), the other sub-funds do not promote environmental and/or social characteristics nor have a sustainable investment as their objective.

For the purpose of the "taxonomy" regulation (regulation EU 2020/852 of June 18, 2020 on the establishment of a framework to facilitate sustainable investment, and amending the EU regulation 2019/2088), the investments underlying the other sub-funds do not take into account the EU criteria for environmentally sustainable economic activities.

The information presented in the table has been sourced from the Clarity AI platform. In the case of fund of funds, a "bottom-up" methodology is applied, involving the analysis of individual assets within the funds that comprise the portfolios. It is noteworthy that the percentages of assets comprising the portfolios may deviate from those recorded at year-end, as the information has been acquired subsequently.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: RENTA 4 - EUROPA ACCIONES Legal entity identifier: 549300VKF917N823G117

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the

Taxonomy or not.

| Did this financial product have a sustainable investment objective? | | | |
|---|--|--|--|
| • • 🗆 Yes | • X No | | |
| It made sustainable investments with an environmental objective:% | It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of% of sustainable investments | | |
| in economic activities that qualify as environmentally sustainable under the EU Taxonomy | with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy | | |
| in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | | |
| | with a social objective | | |
| It made sustainable investments with a social objective:% | It promoted E/S characteristics, but did not make any sustainable investments | | |

To what extent were the environmental and/or social characteristics by this financial product met?

Along refence period, Renta 4 Luxembourg has made investment decisions for asset management to promote environmental, social and governance characteristics according to art 8 2019/2088 UE Regulation. It integrates sustainability risk management in the decision making by selecting investments on assets whose issuers take into account social, environment and governance areas, and promoting investments on companies and public or private issuers that show better performance on ESG risk and opportunities management compared with competitors in the sector. To supervise, Renta4 Luxembourg monitories indicators on sustainability factors integration.

This product considers promotion on environmental, social and governance characteristics in economic activities: 1) Environmental: combating climate change, protecting biodiversity, promoting the sustainable use of natural resources. 2) Social: the elimination of poverty, the defence of human rights, the prosperity for all (education, health, and the fight against inequality and injustice). 3) Governance: board best practices, gender diversity, business ethics, fight against corruption.

In order to evaluate the promotion of these characteristics Renta4 Luxembourg applies following criteria:

- Excluding Criteria: there will not be investments in those issuers that produce controversial weapons as: anti-personnel landmines, cluster bombs, biochemical and biological weapons production and nuclear weapons produced for countries no signatory Nuclear Non-Proliferation Treaty.
- Luxembourg takes into account different data sources like the sustainable data supplier (Clarity AI Europe S.L. "Clarity") with relevant experience in the market. With their own analysts Clarity provides a score from 0 to 100 (100 best score) based on metrics with the relative weight of the product in the portfolio. The methodology "best in class" verses on adding quantitative and policies' metrics scores minus controversies' metrics scores, where the scores come from public data compared with the sector of the company or issuer. Renta4 Luxembourg, with provider's score, makes "negative-screening" by removing assets with less than 35. In addition, the whole portfolio score must be over 50 and the governance score must be over 50 too. More than 50% of net asset value will complies with sustainability-related criteria, having Clarity's score.

How did the sustainability indicators perform?

Most of the portfolio promote ESG characteristics successfully, with a 94.75% of the total net asset value.

The performance of the analysed sustainability indicators to evaluate environmental, social and governance characteristics is the following at 31/12/2024: 70 total ESG score.

indicators measure how the sustainable objectives of this financial product are attained.

...and compared to previous periods?

As far as previous period (end of 2023) is concerned, same indicators had following performance: 68 total ESG score. So, performance has been improved compared to previous period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

NA.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

NA.

How were the indicators for adverse impacts on sustainability factors taken into account?

NA.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

NA.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomyaligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

Renta4 Luxembourg incorporates in procedures, including due diligence processes, the analysis of principal adverse impacts, material or possibly material, of the decisions about sustainable factors. Some of the metrics used for PAIs analysis during control processes are: net greenhouses gas emissions, negative impact on biodiversity activities, dumping waste on vulnerable aquatic area, dumping waste on vulnerable natural areas, responsibility and diligence on social and employees affairs, responsible use of fossil fuels, energy efficiency... In case of detecting incidences on any of these indicators, an engagement labour will be started with the corresponding company or issuer and if there are not improves in the area the divestment would be considered. Some internal and external tools, like Clarity, are used to implement the PAIs procedure. Due diligences and reporting obligations can be consulted on Renta4 Luxembourg's ESG policy.

What was the proportion of sustainability-related investments?

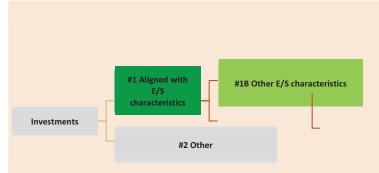

Defined procedures for indicated characteristics promotion apply for all investments, excepting derivatives, liquidity/deposits and other investment products without valuation and its corresponding Score by Clarity tool in order to manage risk and liquidity of the portfolio. In addition, other investment products with no data available to set a score by Clarity in order to measure promotion of environmental and social characteristics.

These exceptions will never exceed 50% of net asset value, therefore more than 50% will complies with sustainability-related criteria.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

As of 31st December 2024, the asset allocation is around 3% in derivatives, 5% in cash, 95% in stocks. 94.75% of the net asset value promote environmental, social and governance characteristics successfully.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

As of 31st December 2024:

| Sector | weight |
|------------------------|--------|
| Health Care | 26.92% |
| Industrials | 19.51% |
| Information Technology | 15.83% |
| Consumer Staples | 15.28% |
| Consumer Discretionary | 13.88% |
| Materials | 10.47% |
| Energy | 3.19% |
| Financials | 1.95% |

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

NA.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

NA.

What was the share of socially sustainable investments?

NA.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "Other" category are: derivatives, liquidity/deposits and other investment products without valuation and its corresponding Score by Clarity tool in order to manage risk and liquidity of the portfolio. In addition, other investment products with no data available to set a score by Clarity in order to measure promotion of environmental and social characteristics.

In any case, the whole portfolio (excepting interest rates derivatives, volatility derivatives and others whose underlaying cannot be analysed from a sustainability point of view) has minimum guarantees being the exclusions detailed in Renta4 Luxembourg's policies and in the excluding criteria section in the question *To what extent were the environmental and/or social characteristics by this financial product met?* of this report.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

All our analysis generated by the management team have a fundamental assessment of the companies that are likely to be integrated into the Renta 4 Europa Acciones portfolio and also an assessment of the score in terms of ESG not only through the scores that they give us the different platforms with which we work if not with the assessment that we make internally. Every report that we make have an exclusive section on the ESG assessment, discarding those that do not meet the essential criteria unless there is an obvious justification. We contact the ESG information providers we work with if there is a relevant discrepancy between the providers' ESG score and our internal one.

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the

Taxonomy or not.

| Did this financial product have a sustainable investment objective? | | | |
|---|--|--|--|
| • • □ Yes | • X No | | |
| It made sustainable investments with an environmental objective:% | It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of% of sustainable investments | | |
| in economic activities that qualify as environmentally sustainable under the EU Taxonomy | with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy | | |
| in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy | | |
| | with a social objective | | |
| It made sustainable investments with a social objective:% | It promoted E/S characteristics, but did not make any sustainable investments | | |

To what extent were the environmental and/or social characteristics by this financial product met?

Along refence period, Renta 4 Luxembourg has made investment decisions for asset management to promote environmental, social and governance characteristics according to art 8 2019/2088 UE Regulation. It integrates sustainability risk management in the decision making by selecting investments on assets whose issuers take into account social, environment and governance areas, and promoting investments on companies and public or private issuers that show better performance on ESG risk and opportunities management compared with competitors in the sector. To supervise, Renta4 Luxembourg monitories indicators on sustainability factors integration.

This product considers promotion on environmental, social and governance characteristics in economic activities: 1) Environmental: combating climate change, protecting biodiversity, promoting the sustainable use of natural resources. 2) Social: the elimination of poverty, the defence of human rights, the prosperity for all (education, health, and the fight against inequality and injustice). 3) Governance: board best practices, gender diversity, business ethics, fight against corruption.

In order to evaluate the promotion of these characteristics Renta4 Luxembourg applies following criteria:

- Excluding Criteria: there will not be investments in those issuers that produce controversial weapons as: anti-personnel landmines, cluster bombs, biochemical and biological weapons production and nuclear weapons produced for countries no signatory Nuclear Non-Proliferation Treaty.
- Luxembourg takes into account different data sources like the sustainable data supplier (Clarity AI Europe S.L. "Clarity") with relevant experience in the market. With their own analysts Clarity provides a score from 0 to 100 (100 best score) based on metrics with the relative weight of the product in the portfolio. The methodology "best in class" verses on adding quantitative and policies' metrics scores minus controversies' metrics scores, where the scores come from public data compared with the sector of the company or issuer. Renta4 Luxembourg, with provider's score, makes "negative-screening" by removing assets with less than 35. In addition, the whole portfolio score must be over 50 and the governance score must be over 50 too. More than 50% of net asset value will complies with sustainability-related criteria, having Clarity's score.

How did the sustainability indicators perform?

Most of the portfolio promote ESG characteristics successfully, with a 77.78% of the total net asset value.

The performance of the analysed sustainability indicators to evaluate environmental, social and governance characteristics is the following at 31/12/2024: 67 total ESG score.

indicators measure how the sustainable objectives of this financial product are attained.

...and compared to previous periods?

As far as previous period (end of 2023) is concerned, same indicators had following performance: 69 total ESG score. So, performance has been stable compared to previous period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

NA.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

NA.

How were the indicators for adverse impacts on sustainability factors taken into account?

NA.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

NA.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomyaligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse
impacts are the most
significant negative
impacts of investment
decisions on
sustainability factors
relating to
environmental, social
and employee
matters, respect for
human rights, anticorruption and antibribery matters.

Renta4 Luxembourg incorporates in procedures, including due diligence processes, the analysis of principal adverse impacts, material or possibly material, of the decisions about sustainable factors. Some of the metrics used for PAIs analysis during control processes are: net greenhouses gas emissions, negative impact on biodiversity activities, dumping waste on vulnerable aquatic area, dumping waste on vulnerable natural areas, responsibility and diligence on social and employees affairs, responsible use of fossil fuels, energy efficiency... In case of detecting incidences on any of these indicators, an engagement labour will be started with the corresponding company or issuer and if there are not improves in the area the divestment would be considered. Some internal and external tools, like Clarity, are used to implement the PAIs procedure. Due diligences and reporting obligations can be consulted on Renta4 Luxembourg's ESG policy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As a master-feeder with 100% allocation on Renta4 Valor Relativo, FI we attend to its fund manager: "Before making investments, we check that de issuer conforms to our ESG criteria as defined above. We also review the weakest KPIs of their ESG score to assess if they may be a major concern that needs to be addressed. Besides, regularly we control that the ESG scores of the issuers in the portfolio continue to conform with the ESG criteria established for the fund. When meeting with the companies we invest in, we address the potential ESG issues the company might have when considered relevant."

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

When we make investments, mainly with investment funds, in our quantitative analysis, we take into account that the fund has sustainability criteria. A

When selecting a fund, in addition to taking into account criteria such as profitability, volatility, etc., we also take into account sustainability criteria. To do this, we have tools such as Morningstar direct that provide us with sustainability data. We use Clarity tool too, it also allows us to see sustainability criteria by fund and the portfolio as a whole.

Finally, the changes we make, we seek to maintain or increase our exposure in funds with article 8 or 9, with the intention of meeting ESG criteria, without forgetting that these funds have a good track record and adjust to the characteristics that we are looking for to invest in an asset or market.

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

NA.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

NA.

What was the share of socially sustainable investments?

NA.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "Other" category are: derivatives, liquidity/deposits and other investment products without valuation and its corresponding Score by Clarity tool in order to manage risk and liquidity of the portfolio. In addition, other investment products with no data available to set a score by Clarity in order to measure promotion of environmental and social characteristics and eligible financial instruments allowed by Directive 2009/65/CE whose profitability is related to commodities (these will not be valuated by Clarity tool).

In any case, the whole portfolio (excepting interest rates derivatives, volatility derivatives and others whose underlaying cannot be analysed from a sustainability point of view) has minimum guarantees being the exclusions detailed in Renta4 Luxembourg's policies and in the excluding criteria section in the question *To what extent were the environmental and/or social characteristics by this financial product met?* of this report.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

When we make investments, mainly with investment funds, in our quantitative analysis, we take into account that the fund has sustainability criteria.

When selecting a fund, in addition to taking into account criteria such as profitability, volatility, etc., we also take into account sustainability criteria. To do this, we have tools such as Morningstar direct that provide us with sustainability data. We use Clarity tool too, it also allows us to see sustainability criteria by fund and the portfolio as a whole.

Finally, the changes we make, we seek to maintain or increase our exposure in funds with article 8 or 9, with the intention of meeting ESG criteria, without forgetting that these funds have a good track record and adjust to the characteristics that we are looking for to invest in an asset or market.
